POLICY ON ENVIRONMENT AND ENERGY USAGE

Policy on Environment and Energy usage of Sonari College aims to manage and save energy, promote sustainable energy future and protect the environment. The policy will focus on practicing usage of alternative sources of energy and other energy efficient and cost effective equipment.

OBJECTIVES:

To conduct energy audit every year and monitor the use of energy in the campus.

To focus and emphasize on using alternative sources of energy.

To install solar panels.

To install more energy efficient LED and motion sensor bulbs for energy saving.

To raise awareness among employees, students and the stakeholders on the optimal use of energy and its conservation.

To conduct more plantation programmes within and beyond college campus.

To reduce air pollution by using public transportation and other environment friendly vehicles.

To recycle waste water and to minimize waste production.
