Notice

Date : 06.09.2024

This is for general information of all concerned that Sonari College is an Institution of Higher Education with a large number of diverse students. It has an elected body of students called **Sonari College Students' Union** committed to help and support the entire student community. As it is an academic institution, it does not allow anyone to form any other unit or organisation of students in the college premises. This decision has been taken for greater interest of amiability among the students and to avoid any or all possible conflicting or untoward incidents among the students in the college.

All the students are, therefore, requested to comply with the above decision in order to maintain friendly cooperation and healthy academic ambience.
